Profile Summary

- Full Stack Web Developer skilled in building responsive, user-friendly applications using React, Node.js, and Express.
- Proficient in working with databases like MySQL and MongoDB, ensuring efficient data handling.
- Strong in debugging, problem-solving, and delivering scalable, maintainable solutions.
- Knowledgeable in front-end frameworks like Bootstrap and Tailwind CSS to build modern interfaces.

Education

Jamia Hamdard University, New Delhi Master's of Computer Applications	2026-2028 Pursuing (Remote)
H.N.B Garhwal University, Srinagar Bachelor's of Computer Applications	2023-2026 CGPA : 8.18
Madhur Memorial Public Sr Sec School Senior Secondary School Examination	2023 84.8 %

Experience

Full Stack Developer Intern <i>NovaNectar Services Pvt Ltd</i>	25 June 26 - 10 Aug 26 🔗
◦ Developed and maintained full-stack web applications using the MERN stack (MongoDB, Express.js, React.js, and Node.js). Built responsive user interfaces and integrated RESTful APIs for seamless data communication. ◦ Worked with Git and GitHub for version control and collaborative development. Participated in debugging, testing, and optimizing application performance. Collaborated with team members to implement features and deliver project requirements on time.	

Technical Skills

Programming Languages: C++, Python, JavaScript, R
Frontend Development: HTML5, CSS3, React.js, Bootstrap, Tailwind CSS
Backend & Databases: Node.js, Express.js, MySQL, MongoDB, RESTful APIs, WebSocket, Socket.io
Tools & Platforms: Git, GitHub, VS Code, Thunder Client, Vercel, Render, Cloudinary
Core Competencies: Data Structures & Algorithms, Object-Oriented Programming, Problem Solving

Projects

Eco-Garden Services - React.js, Node.js, Express.js, MongoDB, Tailwind CSS <i>E-Commerce Based Client Project</i>	Live 🔗
◦ Developed a production-ready full-stack plant selling e-commerce platform for a real client using the MERN stack, featuring separate User and Admin dashboards with secure JWT-based authentication. ◦ Implemented complete e-commerce functionality including product catalog, category management, order management, customer enquiries, secure online payments (Razorpay/Stripe), and responsive order tracking. ◦ Built a comprehensive Admin Panel to manage products, orders, customers, enquiries, inventory, and website content, while optimizing REST APIs, image handling, and responsive UI for high performance and scalability.	
TaskSphere - WebSocket, React.js, Node.js, Express.js, MongoDB, Tailwind CSS <i>A Team Collaboration and Task Management Platform</i>	Live 🔗
◦ Developed TaskSphere, a full-stack team collaboration and task management platform that enables organizations to manage projects, assign tasks, and track team progress efficiently. ◦ Implemented secure authentication with Google OAuth, JWT-based authorization, and role-based access control (Admin, Manager, and Member) to ensure secure access and permission management. ◦ Built RESTful APIs using Node.js, Express.js, and MongoDB for project management, task assignment, team collaboration, real-time chat, file sharing, notifications, and activity tracking.	

Achievements / Extracurricular

- Successfully completed the Delta Web Development Certification Course by Apna College (2026), gaining hands-on experience in Full Stack Development. [Certificate 🔗](#)
